1. In compliance with DTR's instructions, the following developments and achievements have been accomplished by the Operations School during the past six months:

a. Research and organization for a Scientific and Technical Intelligence Collection Course were completed, and the course has been conducted once for twenty odd students with a relatively high degree of success. Modifications of, additions to, and improvement of the course have been accomplished, and a second running will commence on 20 April.

b. Various statements of need for, and remarks concerning organization and content for a Senior Officers Operations Course have been received from the staffs and area divisions, and such a course to be conducted at headquarters is in the planning phase with a first running probable in the early fall.

c. An efficient and highly successful training site capable of accommodating up to twelve trainees has been constructed during the reporting period [REDACTED] This site has been in continuous and effective use since December 1958 and will provide in the future an additional facility for very sensitive special programs.
